# INDIAN ELECTORAL COMMISSION REMOVES 130 MILLION VOTERS FROM POLLS!

1. <u>Overview on the Nationalist Party</u>

The Republic of India, although a Democratic Bourgeois Republic on Paper, is ruled by an Nationalist Party with their own Party Militia and ranks inside the Parliament to continue enforcing India's Patriarchal Capitalist order against the Indian Workers and Minority People; Women, Non-Hindus, Muslims, Communists, etc etc.

In the recent intensification of the Class Struggle between the Indian Bourgeoisie and the Proletariat over increasingly terrible oppression of Women, Workers and Ethnic Minorities by Patriarchs, Capitalists and Landlords,, the Nationalist Party aligned Parliamentarians inside the Electoral Commission had Bureaucratically removed the Votes of over 130,000,000 Opposition Voters who voted against the Nationalist Party; the 130,000,000 People who were of the Class of People that the Nationalist Party sought to oppress; is actively being cracked down on by said Nationalist Party! [1]

This is exactly the situation akin to the voting system that existed in the Tsarist Dynasty; whereby Working Class and Farmer Voters were heavily restricted in the Tsarist Duma in order to conserve power for the Tsarist Lords and Capitalists.

## 2. Joint-Tasks of the Indian and Australian Proletariat

The Indian Proletariat is in a particularly Revolutionary situation; as the Bourgeois Leaderships of the Indian Opposition Parties against the Nationalist Party signifies the splinter of the Indian Bourgeoisie, the Indian Proletariat in the numerous different Communist Parties as well as Trade Unions and other non-Communist Workers' Parties must make an absolute effort to unite the Proletariat as a Class in order to take advantage of such a Revolutionary Situation; firstly in an Alliance with the Liberal Bourgeoisie to crush the Reactionary Nationalist Party, as an Independent Proletarian, or Communist Front of the Anti-Nationalist Movement, continue appealing to the uncompromising demands of the Mass of the Indian Proletariat to promote the redistribution of India's Land, Services and other Means of productions for the whole People rather than their monopolisation under the Capitalist Class of Businessmen and Landlords; in this way the Proletariat shall simultaneously challenge the Social Relations that gave rise to the Nationalist Party, use consistently Proletarian Policies to gain the support of the Proletarian base of Petite Bourgeois Indian Parties, and most importantly, should the attack against the Nationalist Party by a United Front lead by the Proletariat temporarily supported by the Petite Bourgeoisie succeed, such a summit of a Revolutionary Atmosphere characterised by the Political Unity of the Indian Proletariat and the Political Divide of the Indian Bourgeoisie, will be extremely favourable for the Indian Proletariat to carry out their own Socialist Revolution against the Indian Bourgeoisie as a whole and install in the Nation of India, the Dictatorship of the Proletariat!

Most importantly, the task for us Australian Proletariat today would be to show Solidarity with Indian Immigrants against Racist Threats by the Australian Reaction today; in order for us to provide our Indian Comrades with their needed security here in Australia in order to continue being able to wage a Revolutionary Struggle against both India's own Nationalist Party and Australia's own Bourgeoisie between One Nation, Labour and the Greens, which in present day is also beginning to become more divided as Political tensions mount up.

The eternal Friendship between the Indian and Australian Proletariat, secondary benefit will be the growth of the prestige of International Marxism-Leninism, but most importantly of all, the installment of a Class Dictatorship of the Working Class in order to pave way for a Society built on the foundations of the interests of Workers and Democracy!

# SOCIALIST ALTERNATIVE REFUSES DISABILITY AID TO RIVAL FACTIONS IN NSW SOCIALISTS!

## 1. Overview of SAlt's Despotism

Despite NSW Socialists as a Party having a Membership numbering in totality to 1,500 People, the actual People with all authority of the Party, People who are Members of the Traitorous Socialist Alternative united by the Bourgeois Cliffist Doctrine, number only around 120 in total. [2] What makes the Socialist Alternative Organisation especially threatening to the process of Democracy inside the NSW Socialists is their complete monoppoly on all Authoritative Positions.
Socialist Alternative uses their power they have inside NSW Socialists to completely remove all ability for non-Socialist Alternative People to attend; it is precisely why the 2026 State Conference was completely stacked by Socialist Alternative; and our following examples will show their usage of power to completely curtail inner Party Democracy in order to enforce a Counterrevolutionary, Anti-Communist Ideology.

## 2. SAlt's bullying of Bread & Roses

Socialist Alternative, during the 2026 State Conference, was confronted by the Democratic Caucus Bread & Roses with the following three demands; Working with Children Check Requirement, Hybrid Meeting of combing in person attendance with Zoom calls, and the establishment of Party Branches with Delegation authority.

It was only the working with Children requirement that had passed! The demands to raise accommodation for disabled Individuals alongside the establishment of Delegation Party Branches and frequent, Democratic Meetings was completely refused by Socialist Alternative!

Comrade Marina, from Bread & Roses, who also advocated for the Hybrid Meeting in order to give disabled People more access to the State Conference, reported a Pie Chart whereby 250 Socialist Alternative Members, who were the only ones allowed into the Conference to ensure an absolute Socialist Alternative majority, stacked up against and attacked the seven Democratic Members who aren't SAlt merely to give the illusion of Representative Democracy.
The Socialist Alternative Members had even resorted to bullying Comrade Marina for her trauma at Catholic School in order to gain a Moral High Horse over her as Political leverage in a setting whereby SAlt already dominated overwhelmingly in predetermined numbers! Here is what Marina had to say about the Environment dominated by Socialist Alternative;

"*(Apologies for the length of this, I'm still working off the shitty adrenaline)*

*Yeah, that was the single most awful environment I've ever been exposed to. And the most abhorrently aggressive reaction I've ever encountered. I'm still very shaken by it. And that's *after* the venue itself being a sensory nightmare for me.*

*Despite being a disabled person myself who is simply pointing out areas of ableism & of serious accessibility issues in the party, I'm offending people for actually pointing it out. And apparently I deserved to be yelled at because of it. At no point did they address my concerns, only that I had offended them.*

*Y'all livin' in fairyland if any of you still think that SAlt are amenable & can be worked with. My brother was bailed up after conference, firstly castigating him about my motion & his support for it - I didn't see it, I was already outside, but he stood his ground gracefully & didn't lower himself to their intimidating bully tactics. (This is sincerely The Bro's gift). He was also told in no uncertain terms that NSW Socialists is *their* project, not ours. (Have a think about that.)*

*Well, I ain't going anywhere, baby. Yell at me all you like. We are the ones that need to show them and the community outside this tiny party what socialism & comradeship actually is, by example, and basically by being the exact opposite of them.*

*Many thanks to my Bro, Tony, Ed, Adam, Nick & Jake for being awesome in-person support. Tony, Ed, & Jake all spoke so beautifully with their amendment & motions, and it was inspiring to watch just how erudite our comrades are. We've still got something very important in B&R and we can still make it grow. We're the type of socialists ordinary people will gravitate to, not that performative, undemocratic, unnecessarily aggressive cosplaying uni shit I witnessed today. That garbage needs to be binned. This isn't the Sydney Uni Quad. We're here collectively for our fellow humans to create a greater good, not for our egotistic selves.*

*Their bullying techniques are deliberately triggering, especially if you have deep seeded PTSD. I've only ever witnessed this behaviour to our B&R*

*comrades secondhand, I've never personally experienced it until yesterday. And my eyes are now fully open to how they operate. I've been up all night trying to figure it out, why being yelled at in an incredibly *specific* way yesterday sent me into a spiral & mental shutdown, horrific memories I'd long-buried popping straight up to the surface. They're abusers, plain & simple. And what's worse is that they're all taught these techniques, so when you're yelled at & berated by one of them, the very next one that comes immediately afterwards is in the exact same tone, with the exact same trigger words, eliciting a very specific reaction of shame & guilt that only an "authority" figure can mete out with impunity. For them to instantly bring up my trauma from catholic school is very fucking targeted. I've had that shit treated via intensive therapy for a long time and I haven't been triggered for decades. So yesterday was a complete shock to my system. As it was intended. We're not dealing with just ordinary shitheads here. This is calculated & evil. And it's taught and encouraged within SAlt. They're a cult, no doubt about it.*

*And they shouldn't be leaders. Either in our party or as representatives of us in the community or in our government.*

*Ever.*"

The Political Position that SAlt had literally bullied a disabled Woman for over that they had to defend? That apparently overthrowing Capitalism is a more important priority than actually taking care of the immediate needs of the disabled Socialist Comrades!
How, accordingly to Socialist Alternative, will abolishing Capitalism be easier if we don't take care of the needs of disabled Comrades first so that we may also incorporate their support and decisionmaking? Or is it in the case of the 2026 NSW Socialists Conference, that such Ableism being practiced and upheld by Socialist Alternative is a useful tool for them to use to smash dissidence against Cliffism and their Organisation's Despotism????

Such is absolutely disgusting and deplorable behaviour on the part of Socialist Alternative!

The need to establish Delegation Branches was also refused by Socialist Alternative; and their excuse was word for word; "because Workers only want to participate in Door knocking and Regional Campaigns and don't want Democracy."

How does Socialist Alternative know that Workers don't want Democracy? Has Socialist Alternative ever offered the option of Democracy for Workers to know their stance on Democracy????
Such circular reasoning is reminiscent of Bourgeois Ideology used to guilt trip Workers into submitting to the Dictatorship of Capital; excuses akin to "Workers deserve to be oppressed because they chose to work!".

The Marxist-Leninists of the Workers' and Tenants' Monthly, in Solidarity with the Democratic Bread & Roses Caucus, heavily condemns the Despotism and Ableism of SAlt, which we see as damaging to the participation of the only Class in Australia capable of establishing Socialism; the Working Class itself!
