ISRAEL CANNOT BE REDEEMED!

1. <u>Israel's lies</u>

For decades, the Israeli State had continue to lie about the Palestinian People as a unilaterally hostile Subhuman Species that threatens to spread oppressive Islamic Law that will enslave Women and Children whilst promoting the Genocide of Non-Arabic People. This is completely false and an utterly shameless slander of Palestine!
In Palestine, for thousands of years the People of the three Abrahamic Faiths, Judaism, Islam and Christianity all lived in harmony together. [1] The colonisation of Palestine by the British Empire meant however the beginning of large scale expropriation of Arabic Lands and handing them over to Jewish Settlers; the same Jewish Settlers from Western and Eastern European Countries that before the Holocaust were bribed by Imperial Britain to arm themselves and take over Palestinian Land by force.

Such is the cause of large scale

discontent towards British sponsored Jewish immigration into Colonial Palestine; and what separated it from the later Eastern European immigration into Palestine was that the latter were direct Victims of the Holocaust.

The Soviet Partition Plan involved the formation of two Constitutions, a Jewish and an Arabic one, united under a singular Democratic State with equal representation of both Ethnicities whilst both existing Arabic and Jewish Properties would be protected from expropriations and expropriated Properties either returned to their Owners who are still alive or converted to Public Properties [2] [3].

When the British aligned Israeli Settlers first launched the Arab-Israeli War however, the Soviet Union initially tried to use the United Nations to discipline the Eastern European Immigrants who were increasingly bribed by the Western Israeli Settlers who were using armed forces to dispossess Palestinians [4], before breaking off Relations against Israel from 1950-1953 and even attacking the domestic Zionist Fifth Columnists in the Soviet Union from 1948 onwards until Stalin's death.

The Democratic State envisioned by the Soviet Union was one that was independent from British Imperialism; hence why the Soviet Union armed both Eastern European Jewish Militants and Arabic Militants together which was however quickly betrayed when the Soviet Immigrants again became bribed by the British Zionists.

What the reality in Gaza and West Bank now is the culmination of an Ethnostate formed of Militants that had betrayed the cause for independence against British Imperialism, in favour of a Proxy State of British Imperialism in the Middle East which now seeks to dispossess what little Land and Resources the Palestinian People still have in West Bank and Gaza; hence why Life in Israel is peaceful precisely because the Israeli State is continuing to pursue their Genocide against the Palestinian People in order to steal their Land!

The Israeli State was founded on betrayal, Imperialism and Genocide. It will never be redeemable!
